

Sanitized hypoallergenic

HYPOALLERGENIC

HYPOALLERGENIC
ELITE

Fabric

HYPOALLERGENIC lining made of a soft and comfortable mixed viscose lining fabric. The fabric is hygienic thanks to the "Sanitized" treatment with active ingredient zinc pyrithione, an antibacterial treatment that protects your sleep from mites and moulds while making this lining hygienic and resistant. Ideal against mite and mould allergies.

Padding

Made of hypoallergenic fibre. Soft, breathable and with high hypoallergenic and antibacterial characteristics.

Washing

Machine Washable at 60°
